More specifically for TSG3

At this point of EUSAIR FACILITY POINT project implementation

There is the opportunity to **MONITOR**

- 1) The coherence and implementation of **GENERAL actions foreseen by the EUSAIR ACTION PLAN** (ESPON AND OTHER GENERAL DATA OF THE ENVIROMENTAL STATUS)
- 2) The coherence and implementation of TSG3 **SPECIFIC PRIORITIES** foreseen on the base of **Catania Declaration, by the Managing Authorities in the ADRION area.**

Thanks to the cooperation with the ESPON Programme, the difficulties in collecting data (especially for IPA countries) are being tackled => once the ESPON work is completed (in spring 2020) it will be possible to check and compare data and indicators for all the Macro-regional strategies on the online Territorial Monitoring Tool.
