Zadeva: RE: 9th TSG 3 meeting - Minutes TBR and Logical Framework to be filled!
Pomembnost: Visoka

Dear Colleagues,

As I informed you during the TSG3 meeting held in November this year in Budva, Montenegrin EUSAIR national coordinators and their team are currently working on drafting the Programme of the EUSAIR Forum as timely prepared and organized Forum is of great importance for its success. Based on the conclusions of the last GB meeting, Draft Programme for the Forum has to be presented on the next GB meeting (20-21 February).

In that regard, national Pillar Coordinators should propose the topics for each Pillars Session of the Forum not later than 20 December 2018. For TSG3, I would like to suggest to you for consideration and ask for your feedback on the following topic:

- **Marine Spatial Planning as a cross-cutting theme of the TSGs of the EUSAIR.**

I am aware that a similar topic was discussed during the first Session of PORTODIMARE Conference organized back-to-back with the TSG3 Meeting in November in Budva, but I also believe that a different discussion would be held at the Forum as most of the Panelist at the Session in Budva were not from the EUSAIR team. Also, as the presentations in the Session were too long, we did not have time for a proper discussion.

In case you have other proposals, they are very welcome as well.

It is important to mention that at the next year's Forum Pillar sessions would not be held in parallel what allows to all the interested participants to be present at all Sessions.

I kindly ask you for your feedback on the proposed theme by Thursday, **20 December 2018**.

Thank you.

With best regards,

Ivana
