EUSAIR ACTION LAB: SYNTHESIS OF THE RESULTS

March,18 2022

FOUR ACTION LABS – DEDICATED TO 12 ADRIATIC IONIAN ETC MANAGING AUTHORITIES

ANALYSING: SYSTEM THINKING (16TH OF JULY 2021)

- Common understanding of the flagship
- Exchange of good practice on how to deal with flagship in the OP.
- Identification of best suitable SOs per flagship (synthesis table)

PLANNING: STRATEGIC THINKING (1ST OCTOBER 2021)

- Mapping ETC actions related to the flagships;
- Identification of nodes of complementarities between ETC programmes

IMAGINING: CREATIVE THINKING (19 NOVEMBER 2021)

Going from complementarities to synergies:

- Agreement on "pilot chain of projects" per flagships
- Agreement on a road map

DISSEMINATION: EMBEDDING MODEL (7TH APRIL 2022)

- Dissemination of the results
- Event opened to the larger public

FOCUS ON FOUR EUSAIR FLAGSHIPS

- **Pillar 1 – Flagship 1.1:** FOSTERING QUADRUPLE HELIX TIES IN THE FIELDS OF MARINE TECHNOLOGIES AND BLUE BIO-TECHNOLOGIES
- **Pillar 2 – Flagship 2.1:** SMART/GREEN PORTS HUB CONCEPT
- **Pillar 3 – Flagship 3.3**: PROMOTION OF SUSTAINABLE GROWTH OF THE AI REGION BY IMPLEMENTING ICZM AND MSP
- **Pillar 4 – Flagship 4.5**: AIR CULTURAL ROUTES

COMMON UNDERSTANDING OF THE FLAGSHIP

PILLAR 2 – FLAGSHIP 2.1: SMART/GREEN PORTS HUB CONCEPT

Port network crossing along all EUSAIR countries and including all the ports belonging to the core and comprehensive network of the TEN-T Corridors involved

ZERO EMISSIONS IN PORTS

Infrastructure; ports as energy hub (including cold ironing; hybrid ships)

DIGITALISATION OF THE SUPPLY CHAIN

The use of smart digital solutions to optimize traffic flows and cargo handling in/ around ports; ICT to exchange real time information and data

PORTS AND CIRCULAR ECONOMY

In view of achieving the zero pollution goal, Ports have a role to play also as hub of circular economy (for collecting, transhipping and disposing of waste from ships and other port industries, and for decommissioning ships)

CONNECTIVITY

Mapping of local and macro regional needs and development of network of ports; boosting short sea shipping green solutions

I ACTION LAB (JULY 16) – WHAT ARE THE BEST SUITABLE SPECIFIC OBJECTIVES FOR IMPLEMENTING THE FLAGSHIP?

FLAGSHIPS	Specific Objectives (2021-2027)	ETC PROGRAMMES
1.1. FOSTERING QUADRUPLE HELIX TIES IN THE FIELDS OF MARINE TECHNOLOGIES AND BLUE BIO-TECHNOLOGIES	1.1 Research and innovation	ADRION; IT HR; GR-IT; IPA HR-BA-ME*
	1.4 skills for smart specialization	ADRION; IT HR; GR-IT; IPA HR-BA-ME*
	4.2 education, training and lifelong learning	IT AL ME
Pillar 2 S– Flagship 2.1: SMART/GREEN PORTS HUB CONCEPT	**3.2 transport mobility**	**ADRION; IT-HR; GR IT; IT AL ME**
	2.6 circular economy	**ADRION; GR-IT**
Pillar 3 – Flagship 3.3: PROMOTION OF SUSTAINABLE GROWTH OF THE AI REGION BY IMPLEMENTING ICZM AND MSP	2.7 preservation of nature, biodiversity, green infrastructures	ADRION; IT HR; GR IT; IT AL ME; CROATIA SERBIA
	2.4 climate changes and risks	ADRION; IT HR; IT AL ME
	4.2 education, training and lifelong learning	IT AL ME
	1.3 SMEs	ADRION; IT AL ME
Pillar 4 – Flagship 4.5: AIR CULTURAL ROUTES.	1.1 Research and innovation	ADRION; IT AL ME; GR IT
	1.3 SMEs	IPA CRO-BIH-ME*; IT AL ME
	2.7 preservation of nature, biodiversity, green infrastructures	IPA CRO-BIH-ME*
	4.6 culture and sustainable tourism	IT HR; IT AL ME

II ACTION LAB: WHAT? WHAT PATTERNS OF COOPERATION ARE EMERGING?

III ACTION LAB : NOW, WHAT?...WHAT ACTIONS PAVE THE WAY FOR HIGH LEVEL OF SYNERGIES?

2.1	Digitalisation (ICT) in ports, with a main focus on information sharing along the logistic chain: just in time traffic management (maritime side) and real time information (land side). Other possible issues: safety at sea, cybersecurity; availability of basic infrastructure (e.g. 5/6 G even though it is more relevant for the larger ports).	*ADRION; IT-HR; IPA South ADRIATIC; Greece-Italy; IT-SLO*	*Environmental performance of ports* (mainly green transport solutions/eco-friendly transports in ports, multi-modality between ports and hinterlands)	*ADRION; IT-HR; IPA South ADRIATIC; Greece-Italy*
			Alternative fuel: avoid to concentrate on projects dealing with one single alternative fuel. Better to focus on: on retrofitting of the Vessels; equipment of the facilities of the ports in order to have them less polluting; helping setting a regulatory environment for alternative fuel; pilot projects on specific maritime routes; analysis of using alternative green fuel also for road transport along with maritime routes.	*ADRION; IT-HR; IT SLO (?)*
			Circular economy: new topic. Need for an analysis of the state of the art.	*ADRION; IT-HR; GR-IT; IT-SLO (?)*
			Short Sea Shipping (mainly in terms of interconnectivity of passenger traffic)	*ADRION; IT-HR; GR-IT*

THE WAY FORWARD

- ***Action Labs***
  - Opportunity to have a clear mapping of the ETC contribution to flagship 2.1. in 2021-27
  - Opportunity to foster a better understanding of the flagship. The description of the flagship is very generic and need also to be adapted to different type of funding sources.
  - TSG experts had the opportunity to come into contact with ETC programmes (MAs/JS);
  - Pave the way for a more structured dialogue with ETC programmes in 2021-2027.

- ***The way forward***
  - ***Cross programme working group***: permanent; with period meetings; opened to MAs/JS.

  - **Technical groups on specific flagships:** for harmonisation of the objectives of the calls; of the selection criteria; ToRs.

  - **Inter-programme capitalisation** activities and tools
