TOREK/TUESDAY 17. 9.	<b>9:00-18:00 SREČANJE</b> ključnih izvajalcev EUSAIR in ESIF/IPA organov upravljanja (samo za vabljene)	<b>MEETING</b> among EUSAIR key implementers and ESIF/ IPA Programme Authorities (by invitation only)	Portorož, Hotel Bernardin	EN	
	Namen srečanja je nadaljevanje dialoga med pristojnimi ESIF/IPA organi upravljanja in ključnimi izvajalci EUSAIR na temo vzpostavljanja sinergij in vključevanja relevantnih EUSAIR prioritet v ESIF/IPA programi. Razprava se bo osredotočala na to, kako vzpostaviti transnacionalno sodelovanje v ESIF/IPA programih, da bo to koristilo Jadransko-jonski makroregiji in njenim zainteresiranim deležnikom. Udeleženci so vabjeni, da razpravljajo, opredelijo in s dogovorjo o konkretnih priložnostih v zvezi z večletnim finančnim okvirjem po letu 2020, pri čemer upoštevajo izkušnje pridobljene v okviru EUSBSR. Razprava se bo osredotočala na praktične pomislike o tem, kako vzpostaviti, olajšati in povečati sodelovanje v Jadransko-jonski makroregiji. Dogodek je praktične in tehnične narave.	The meeting aims to continue a dialogue between ESIF/IPA Programme Authorities and key implementers of the EUSAIR on how to build synergies and embed relevant EUSAIR priorities in the ESIF/IPA programmes. The discussion will be focused on how to establish transnational cooperation in the ESIF/IPA programmes for the benefit of the macro-region and for its stakeholders. Participants are invited to discuss, identify and agree on concrete opportunities related to post-2020 multiannual financial framework, taking into account the embedding experiences from the fellow EUSBSR colleagues. The discussion will focus on practical concerns on how to establish, facilitate and increase cooperation in the Adriatic-Ionian macro-region. The event is of a practical and technical nature.

The objective of a tailor-made workshop, organized by the EUSAIR Facility Point Lead Partner, is to reinforce the capacities of the EUSAIR governance structures and facilitate the exchange of experience and expertise between the aforementioned governance structures, external experts and relevant key stakeholders. The workshop aims to contribute to a better understanding what are the challenges/ needs/ wants/ capabilities in terms of strategic and operational aspects of the EUSAIR communication. Participants are expected to get equipped with knowledge and skills to minimize the risks, identify good stories and take advantage of communication opportunities in the Adriatic-Ionian macro-region, following a build-to-suit approach in line with their area of expertise. The workshop is aimed at the EUSAIR strategy and is organized by the Government Office for Development and European Cohesion Policy, acting as a coordinator of the EUSAIR Facility Point strategic project.			
ČETRTEK/THURSDAY 19. 9.	<b>9:00-17:45 DELAVNICA:</b> Komuniciranje makroregionalnih strategij	<b>WORKSHOP: How to communicate macro-regional strategies</b>	Izola, Trg Etbina Kristiana 1 II Izola, Trg Etbina Kristiana 1	EN	
	EU makroregionalne strategije (MRS/Strategije) so integrirani okvir, ki naslavljajo družbene in ekološke izzive širšega območja. MRS Strategije prispevajo hkrat do razvoja in implementaciji evropskih politik. Da bi se zagotovila večja učinkovitost izvajanja MRS, so potrebi nadaljnji napori za izboljšanje komunikacije makroregionalnih dosežkov in njihove dodane vrednosti. Kako naslavljati in upravljati komunikacijo o MRS? Kako naj postane učinkovita glede na omrežje vire? Kako najbolje nasloviti potrebo po nadaljnji prizadevanjih za izboljšanje notranje in zunanje komunikacije preko MRS, kar je bilo poučljeno v nedavnih sklepih Sveta o izvajaju makroregionalnih strategij EU. Cilj drugega srečanja komunikacijskih strokovnjakov za makroregionalne strategije, je izmenjati izkušnje in poglede na nastavljena vprašanja. Delavnica bo omogočila tudi vpogled v praktična komunikacijska orodja, ki jih je mogoče uporabiti za bolj nazorni prikaz dela in aktivnosti, ki jih izvajajo makroregionalne strategije. Delavnica je namenjena vsem štirim makroregionalnim strategijam EUSAIR, EUSALP, EUSDR, EUSBSR in jo organizira Program Interact.	How to best address the call for further efforts to improve the internal and external communication across MRS stressed in the recent Council Conclusions on the implementation of EU Macro-Regional Strategies. The aim of the second MRS communication managers meeting is to exchange experiences and views on these questions. The workshop will also look into practical communication tools that can be used to make MRS better understood. The workshop is addressing all four macro-regional strategies: EUSAIR, EUSALP, EUSDR, EUSBSR and is organized by the Interact programme.

13:00-18:00	<b>ZELENA INFRASTRUKTURA ZA ZELENO PRIHODNOST</b> (Predstavitev aktivnosti s področja načrtovanja in upravljanja ZI; EUSALP AS7, ZRSVN in MOP) (obvezna ločena registracija)	<b>GREEN INFRASTRUCTURE 4 GREEN FUTURE</b> (Presentation of activities in the field of GI planning and management; EUSALP AG7, Institute of RS for Nature Conservation and RS Ministry of the environment and Spatial planning) (separate registration required)	Koper, Naravni rezervat Škocjanski zatok II Koper, Nature reserve Škocjanski zatok	EN	
	Zelena infrastruktura je tema, ki je vse pogosteje omenjena tako med strokovno javnostjo kot tudi v medijih. O čem pravzaprav govorimo? Kaj je zelena infrastruktura (nadaljevanje ZI)? Je to še ena "zelena fluskula" ali pa nam aktivnosti na tem področju resnično prinašajo rešitve v smeri bolj zelenega, torej trajnostno naravnove družbe, ki gradi na omenjeni nosilni sposobnosti okolja ter spôstovanju narave? Predstavniki različnih organizacij ter izvajalci projektov iz programov mednarodnega sodelovanja bodo predstavili izkušnje in prakso načrtovanja in upravljanja z ZI ter kako aktivnosti v tem področju lahko prinašajo doseganje ciljev za zeleno prihodnost. Izvedbeni del delavnice bo namenjen predstavitvi konkretnih strateških projektnih resitev, ki operativno služijo nadzoru in varnosti v okviru prometno - informacijskega centra. Okroglo mizo bo vse deležnike spodbudila k aktivnemu iskanju načinov, kako učinkovito in bolje načrtovati segment mobilnosti v občinskih prostorskih načrtih za potrebe samih prebivalcev in tudi turističnih tokov.	Green infrastructure is a topic that is increasingly mentioned by the professionals and the media. What are we actually talking about? What is Green Infrastructure (hereinafter GI)? Is it yet another "green flicker" or the activities in this area really bring solutions towards a greener, sustainable society that builds on limited carrying capacity of the environment and respect for nature? Representatives of various organizations and project implementers from cross-border and transnational cooperation programs will present experiences and practice of planning and managing GI and how GI activities contribute to the conservation of biodiversity, as the core element of green infrastructure. The event is intended for general and professional public. It will be implemented within EU Strategy for the Alpine Region (EUSALP) and its Action group for ecological connectivity, supported by the AlpGov project, organized by the Institute of the Republic of Slovenia for Nature Conservation and the Ministry of the Republic of Slovenia for the Environment and Spatial Planning.			
15:00-18:00	<b>PERSPEKTIVE TRAJNOSTNE MOBILNOSTI V SLOVENSKI ISTRI</b>	<b>PERSPECTIVES OF SUSTAINABLE MOBILITY IN SLOVENIAN ISTRIA</b>	Koper, Pretorska palača, Titov trg 3 II Koper, Praetorian Palace, Titov Square 3	EN	
	Krepitev ozaveščanja možnosti nadgradnje trajnostne mobilnosti v Slovenski Istri. V okviru predstavitev bodo prikazane posamezne prometne strategije, s poudarkom na širšem funkcionalnem območju. Poleg izvedbe strategij pa bo predstavljeno tudi konkretno iskanje možnih projektnih resitev, ki operativno služijo nadzoru in varnosti v okviru prometno - informacijskega centra. Okroglo mizo bo vse deležnike spodbudila k aktivnemu iskanju načinov, kako učinkovito in bolje načrtovati segment mobilnosti v občinskih prostorskih načrtih za potrebe samih prebivalcev in tudi turističnih tokov.	Raising and strengthening awareness of the possibilities for upgrading sustainable mobility in Slovenian Istria. The presentation will display different transport strategies, mainly focused on the wider functional area. In addition to the implementation of strategies, a concrete search for possible project solutions will also be presented, which serve as supervision for control and safety within the traffic-information center. The round table will encourage all stakeholders to actively identify ways for an efficiently planning of traffic mobility in the municipal spatial plans according to the needs of the inhabitants and tourist flows.
