# AN EXAMPLE: LINKS WITH OTHER COHESION AND IPA PROGRAMMES

Example:

# LINKS WITH OTHER ETC PROGRAMMES

Coordination among ETC programmes should include (indicatively):

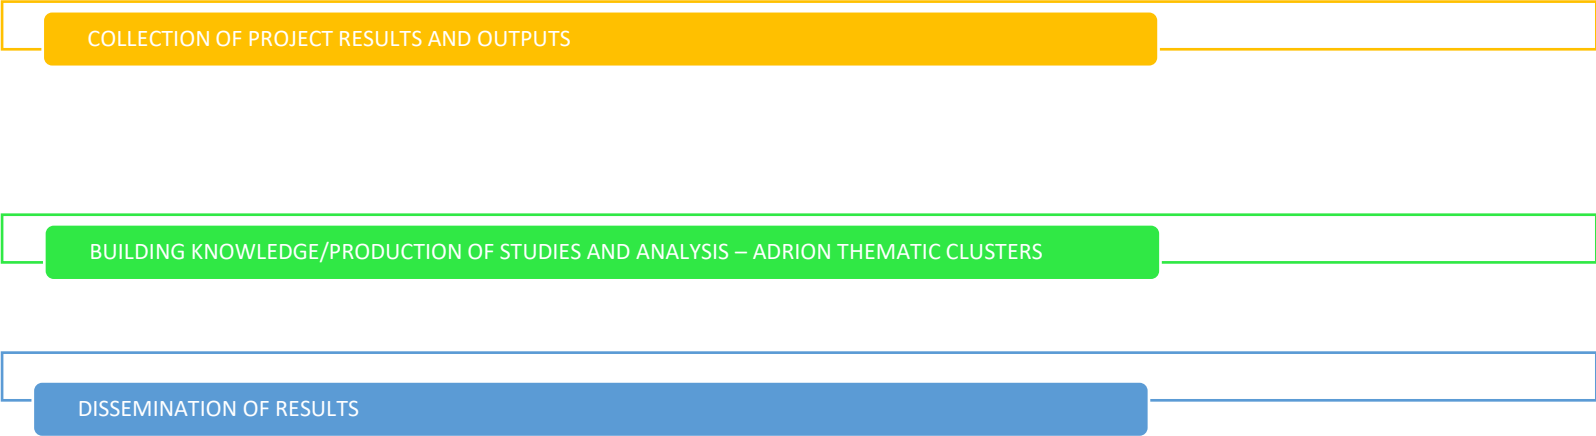

- With TN programmes: the adoption of complementary and synergic features/types of action in relation to the presence of eventual common topics to avoid the funding of similar activities in the area;
- With CBC programmes: the adoption of complementary features/types of action (at least with those CBC programmes with the highest financial allocation/high relevance for the Adriatic-Ionian area).

From a technical point of view, elements to be streamlined could be:

- Chosen strategies and identified topics already in the programming phase;
- Calendar and content of calls for proposals;
- Capitalization activities (with TN programmes);
- Joint monitoring tools to boost anti-fraud measures, controls on double funding etc.;
- Meetings with the affected MAs.

### Policy Objectives

- PO1 – a smarter Europe by promoting innovative and smart economic transformation
- PO2 – a greener, low carbon Europe by promoting clean and fair energy transition, green and blue investment, the circular economy, climate adaptation and risk prevention and management
- PO3 – a more connected Europe by enhancing mobility and regional ICT connectivity (some identified topics likely shifted to PO2)
- Interreg Specific Objective to enhance institutional capacity of public authorities and stakeholders to implement macro-regional strategies [...]

**Under PO1, PO2 and PO3 indicative actions have been identified as well**
