

**On-line Workshop organised by TSG 3 EUSAIR:
"What can EUSAIR do to enable the blue and green sustainable growth in EUSAIR:
MSP in EUSAIR state of the art"**

PROGRAMME

Venue: online - Izola, Slovenia.

Participants: EUSAIR Pillar Coordinators for TSG 3/1 and TSG 3/1 members, EUSAIR Facility Point representatives, other MRS coordinators, Commission representative(s), experts, representatives from the sectors/Ministries, interested public, potential projects beneficiaries/partners, Interact.

Chairs/Moderators: EUSAIR Pillar 3 Coordinator, EUSAIR Pillar 1 Coordinators.

Outline:

The joint workshop of TSG3 and TSG1 will be dedicated to the further enhancement and recognition of marine protected areas and spatial planning at sea and river basins in EUSAIR region. EUSAIR countries should recognize the importance of maritime protected areas and spatial planning at sea and the importance of plans for joint planning of protected areas at sea. The workshop will give the opportunity for each county to present the state of the art of the work done and challenges in establishing the blue and green corridors and marine and water spatial planning.

To further elaborate on the possibilities of establishing the MPA's in EUSAIR a part of the workshop will be dedicated to the presentation of good practices and analysis already done in EUSAIR area that was further reinforced with the analysis of the legal basis in establishing MPA's. The discussion at the end of the workshop will aim to find a common agreement on where the transboundary MPA's and river basin protected area could be established and how can EUSAIR support the process.
