## 9<sup>th</sup> EUSAIR Forum

### *Shaping the future of EUSAIR*

#### GENERAL INFORMATION

The 9<sup>th</sup> Forum of the EU Strategy for the Adriatic and Ionian Region will be organized jointly by the Ministry of Foreign and European Affairs of Croatia, Ministry of Regional Development and EU Funds of Croatia and the EUSAIR Facility Point Project Partner, Ministry of Tourism and Sport of Croatia, in close cooperation with the European Commission and supported by the EUSAIR Facility Point (Interreg IPAADRION 2021-2027).

The Forum will mark the successful finish of the Croatian Presidency and celebrate the collective efforts of all stakeholders towards one shared vision: to rejuvenate the Strategy and make it more relevant and up-to-date, more operational, and more capable of effectively addressing future challenges.

### FORUM LOCATIONS:

Venue: Amadria Convention Centre Šibenik

Registration and welcome package: Amadria Convention Centre Šibenik

Coffee (served all day): Amadria Convention Centre Šibenik

### REGISTRATION DESK

The registration and information desk will be located in the conference area of Amadria Convention Centre Šibenik.

All participants must present their identification documents at the registration desk to collect their welcome packages and name badges. **The name badge must be worn visibly at all times and is required for attending all events of the Forum.**

The information and registration desk will provide you with all the information related to the venue, the services provided and all activities.

### LANGUAGE

The official language of the event is English. No translation will be provided.

### CURRENCY

The local currency is the EURO (€).

### ELECTRICITY

In Croatian, as in most European countries, type C sockets are standard. The Type C plug has two round pins. The pins are 4 to 4.8 mm wide with centers that are spaced 19 mm apart. It also fits into Type E, F, J, K or N sockets that often replace the Type C socket. The voltage is 220 V and is used to connect electrical devices with a capacity of up to 3,5 kW.
